

## **Zone 2: The Mid Zone**

The next 30'-70' space around your home. This is an area for landscape trees and shrubs, orchards and gardens, but not for wild, dense woodland vegetation.

- ✎ Maintain space between ornamental or wild shrubs at least twice as wide as their diameter.
- ✎ Prune lower limbs of trees up to 10' above ground level.
- ✎ Ideally, use only fire resistant trees and shrubs in this zone.
- ✎ Tree crown spacing should not be less than eight feet.
- ✎ Clean-up dead limbs and remove ladder fuels.
- ✎ Cut or mow grass to a maximum of 8" high.
